Information for people in Newcastle upon Tyne

Feeding Families

Feeding Families supports people in food poverty across the entire North East region by providing ‘Emergency Food Boxes’ with enough food to support up to 2 people for 3 days .

Feeding Families provide food boxes and work alongside GPs, mental health nurses, schools, family support workers, charities, housing associations, council services and Social Services across the North-East region.

They provide Christmas matched dinners during December. A family can donate the ingredients to a Christmas dinner to another family in need.

Their main base is in Blaydon, with a second base in the Sedgefield Area.

> Please note Feeding Families are not a food bank. If you need food help please speak to a professional who can refer you into Feeding Families.
