Information NOW
Information for people in Newcastle upon Tyne

Carelink24

Carelink24 provides personal alarms for older people and those in need of extra support at home.

The Lifeline Vi Unit is simple to use.. The unit is a plug & play device – which means you can install it using your telephone socket and a power socket.

There are three buttons. These include the red “Help” button, which you can press in an emergency; the green “Cancel” button – just in case you press your pendant by mistake and “Home/Away”
