IE Hub

IE Hub is an online budgeting tool that allows people to create an Income and Expenditure statement (I&E) which then can be shared out to multiple organisations you owe money to (creditors). There are a number of creditors signed up but you can use their free postage service to send your I&E to your desired creditor.

IE Hub is partnered with LendingMetrics which enables open banking, meaning you can provide highly accurate information with minimal manual input.

The website is

- compatible with all web browsers and devices.
- has guidance to help you to complete the form/s
- private to the user and a creditor you have chosen to share data with
- a credit relationship management system for debt and money advisers

Debt and money advisors can request a demo using the email below.
