Information for people in Newcastle upon Tyne

# Myfolks Ltd

Myfolks connects older adults with people in the community who can support them right when they need it. MyFolks uses local people (called Myfolksers) with an interest in supporting older people who may be socially isolated. This could be helping with tasks or just visiting to put the kettle on and have a cuppa with someone. They offer:

- companionship
- light household tasks
- accompany someone to an appointment
- technology support

They do not offer personal care.

Myfolksers have an Enhanced DBS check, confirm their right to work in the UK and have references checked. Many work in health, social and care services. You can use the MyFolks App on your mobile or smart device to arrange visits and companionship for your loved one.

There is a cost for this service.
