Newcastle Pickleball

Pickleball is a new sport to the UK- and played mainly by the over 50s- and is a “cross” between tennis, badminton and table tennis. They use a badminton court and a tennis height net and special paddles – about twice the size and thickness of a table tennis bat – and balls- all of which they provide.

Just turn up and play! It is a very easy game to pick up and you will be playing within minutes! It is also great fun to play and ideal exercise.
